Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the SAB Hydraulic Fracturing Research Advisory Panel will hold a public teleconference as part of the peer review of the EPA draft report, *Assessment of the Potential Impacts of Hydraulic Fracturing for Oil and Gas on Drinking Water Resources, (May, 2015 External Review Draft, EPA/600/R-15/047)*.

The EPA's Office of Research and Development (ORD) has developed a draft assessment report concerning the relationship between hydraulic fracturing and drinking water in the United States. The purpose of the report, *Assessment of the Potential Impacts of Hydraulic Fracturing for Oil and Gas on Drinking Water Resources, (May, 2015 External Review*

Draft, EPA/600/R-15/047), is to synthesize available scientific literature and data to assess the potential for hydraulic fracturing for oil and gas to impact the quality or quantity of drinking water resources, and identify factors affecting the frequency or severity of any potential impacts. As noticed in 80 FR 32111-32113, the SAB Hydraulic Fracturing Research Advisory Panel held a face-to-face meeting on October 28-30, 2015, to conduct a peer review of the agency's draft report.

The purpose of the December 3, 2015, public teleconference is for the SAB Hydraulic Fracturing Research Advisory Panel to complete agenda items from the October 28-30, 2015 Panel meeting, namely to develop preliminary key points in response to charge questions on the agency's draft assessment.

Availability of Meeting Materials: Additional background on this SAB activity, the teleconference agenda, and other materials for the teleconference will be posted on the SAB website at

Procedures for Providing Public Input: Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA.

Interested members of the public may submit relevant information on the topic of this advisory activity, and/or the group conducting the activity, for the SAB to consider during the advisory process. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for SAB committees and panels to consider or if it relates to the clarity or accuracy of the technical information.

Throughout the Panel review process, there will be opportunities for the public to provide comments. For example, the public was invited to provide comments to the Docket on the draft EPA report and will have an opportunity to provide comments to the Docket on the SAB Panel's draft report, provide oral statements to the Panel during the Panel teleconferences and meeting, and provide comments in preparation for quality review of the SAB Panel's draft report by the Chartered SAB. Members of the public wishing to provide written comments may submit them to the EPA Docket electronically via www.regulations.gov, by email, by mail, by facsimile, or by hand delivery/courier.
